## PROJECT EXPERIENCE

### Blogging Application

Jan 2018

A blogging application that allows users to create user accounts and blog posts and enables them to view their posts and the posts of other users

- Implemented project using Python , Html, CSS, Bootstrap, and the Flask framework. Enabled data persistence using SQL and SQLAlchemy.
- Utilized database queries to detect if a user was still signed in and to respond with appropriate access to pages and blog posts.
- Achieved user input validation in the front and back-end using regular expressions and error handling within Flask's Jinja templating engine.
- Redesigned and linked a Bootstrap template for a sleek and simple front-end experience.

### Asp.net MVC Application

March 2018

A Web Application that allows the user to store their favorite cheeses to a database along with the ability to create various cheese menus.

- Built project using C#, Html, CSS, Bootstrap, and Asp.Net framework. Accomplished data persistence through SQL and the Entity Framework.
- Constructed classes, objects, and view models to receive and manipulate user input and output.
- Maintained separation of concerns throughout application through adherence to MCV principals.
- Gained data persistence through creating a bridge table to store a composite key within the SQL database. This allowed the program menu item creation functionality by joining data from the cheese and menu database tables.
- Implemented dynamic content creation within the front-end through the use of Asp.Net's Razor Templating and Model Binding.

## SKILLS

- Research, Analysis and Reporting
- Leadership & Team Collaboration
- Debugging and Unit Testing
- Life Insurance Operations & Activity
- Maintains Strict Confidentiality in Duties

## TECHNOLOGY SNAPSHOT

### Languages:

HTML5 | CSS3 | Python | C#

### Frameworks:

Bootstrap 4 | Flask | Asp.Net MVC Core

### RDBMS:

SQL | PostgreSQL

### Process Modeling:

OOP | MVC

### Development Tools:

Visual Studio Code | Sublime | Git | Github | Gimp | MAMP |

## CERTIFICATIONS

LaunchCode LC101  
Certification of Completion  
(March 2018)

Florida 214 Life and Variable  
Annuities License (May 2015)

## WORK EXPERIENCE

### **New York Life Insurance, Tampa, FL — Member Services Rep**

Oct 2014 - Sep 2017

- Streamlined the daily operations and achieved operational efficiencies; consistently exceeded monthly key performance goals and objectives. Provided world class service and prioritized day-to-day operations.
- Handled high volume of external inbound/outbound customer and sales agent inquiries.
- Communicated product features, benefits and contract provision details.
- Ability to handle wide range of customer interactions independently.
- Ability to explain basic information in functional areas.
- Performed all transactions in compliance with company guidelines and insurance regulations while meeting the needs of the customer.

### **Pat Fragile and Associates: Internship, Beckley, WV — Office Administrator**

May 2011- Oct 2011

- Managed the day-to-day administrative and legal support activities of the law firm; answered a high-volume of incoming phone calls on a multi-line system, produced reports, composed correspondence, updated and maintained confidential client files, and drafted motions, subpoenas, and petitions.
- Upheld ethical standards and practices.
- Chosen to support a divorce case; prepared initial motions and petitions for the divorce and child custody, filed all documents with the court systems, and presented files for respondent delivery
- Recruited as an intern and selected to assume a permanent position with the firm; progressively assumed positions of increasing responsibility; recognized for demonstrating efficiency in daily duties.

## EDUCATION

**Launch Code, Tampa**

Oct 2017 - March 2018

Participated in LaunchCode Tampa's 20 week inaugural course where I learned the fundamentals of programming and development through in-class lessons, course content, and hands-on projects.

**Concord University, Athens, WV — B.A. Sociology** May 2011
